Ross[®] Vinyl Locking H-Mold

U.S. Pat. No. D594,563

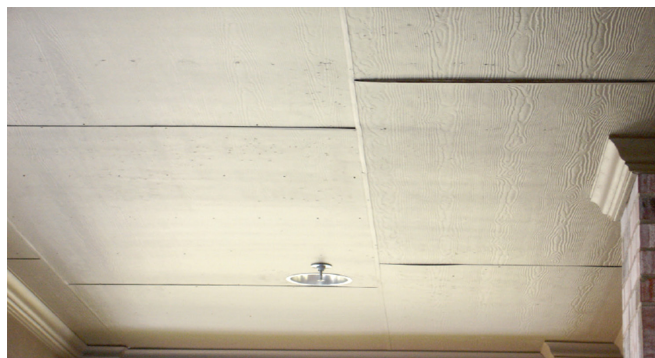

Ross Locking H-Mold

- A better alternative to caulk, non-flexible aluminum or coated aluminum H-Mold.
- Features locking lips that grip the siding creating a more solid connection and reducing the possibility of vinyl shrinkage and movement.
- Covers the butt ends of siding making for a more attractive finish to siding jobs.

Once it locks, it stays

Competitors' Typical H-Mold

Avoid costly call backs
